Guarantees in marketing are unusual. They are rarely offered, but if they are - it is typically written in a way that provides very little actual protection. Our guarantees are clear, easy to understand, and provide protection to all of our clients.

After years of successful clients served, we have strong data to support the results our clients will receive. With the data on our side, we offer three guarantees with our service in order to eliminate the risk for our clients and to provide peace of mind when they begin to work with Surch. The details of these guarantees are outlined below. These guarantees apply as long as a client is spending the recommended budgets for Ads, and is current on their monthly Surch installments - in other words,

"You do your part, We Do Ours - Guaranteed"

OUR PROMISE

Do Nothing Guarantee - This guarantee is a bit more of a statement, but we Guarantee that if you don't put your business in front of your local audience on Google, Bing, etc., your competitors will continue to book those jobs from local searches - instead of you.

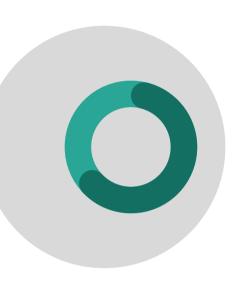

GUARANTEES	CORE	GROWTH	LEADER
Rank Or Free Guarantee (SEO)		\checkmark	\checkmark
Lead Target Guarantee		\checkmark	\checkmark

Rank or Free Guarantee (Our SEO Guarantee) - If we don't rank three of your top ten keywords on Google (First 15 Organic Positions) within the first 150 days (SEO takes some time), we will pause billing for your SEO service (½ of monthly service fee) for up to 90 days while we continue to get those keywords to rank.

Lead Volume Guarantee - See "Monthly Lead Volumes" above*. If your monthly lead volume falls below the projected range within 150 days, the Drillest team will work for free for the next 90 days until the target is met.
